

DEPARTMENT OF
GEOGRAPHY
College of Arts and Sciences

Shape the future with a degree in Geography

Use **MAPPING** technologies to study the world around you
DIVE into **FIELDWORK AND ENVIRONMENTAL STUDIES**
Explore unique **PLACES** and **CULTURES**

	FIRST YEAR	SECOND YEAR	THIRD YEAR	FOURTH YEAR+
Your Courses	Build your knowledge with foundational classes like GEOG 1113 (Cultural) and GEOG 1114 (Physical).	Develop your technical skills in GEOG 4203 (Intro to GIS) and GEOG 3333 (Spatial Statistics).	Explore advanced topics in Cultural or Physical Geography. Master GIS skills through GEOG 4323, 4333, 4343, & 4353 .	Find an area of interest to apply your technical skillset. GEOG 4313 serves as the Capstone.
Your Experience	Enhance your academic and professional journey through volunteering, internships, and online short courses .	Undertake fieldwork and research that align with your interests. Attend seminars to network, build knowledge, and raise cultural awareness.	Conduct research in the Geography Undergraduate Mentors Program or apprentice in teaching through the Geography Teaching and Learning Experience .	Finalize a GIS or Environmental Studies Certificate or attend a regional Geography Conference like SWAAG .
Your Community	Join The Geography Club or other groups related to your personal interests and academic goals. Use social media to find active groups!	Forge stronger campus connections by taking on leadership roles within clubs and actively participating in campus discussions and forums.	Engage in local community geography-related events and projects to foster valuable connections.	Collaborate with planning initiatives , environmental organizations, or workshops for career development.
Your Career Readiness	Build a professional online presence. Work with LASSO or The Writing Center to improve study skills .	Work with OSU career services to improve career readiness. Begin exploring internships and study abroad opportunities .	Strategize for post-graduation success by applying for Geography Scholarships. Join Gamma Theta Upsilon .	Finalize career plans with a career counselor and cultivate your professional network .
Your Personalized Path	Pursue a Certificate in GIS or Environmental Studies; Co-research with faculty and present at a conference!			

YOU WILL LEARN

How geographers use data to map the world; Why cultural attitudes and practices vary from place to place; How to apply an understanding of human-environment relations in a globalizing world

WHAT IS NEXT

Join an energy or utility company and manage resources; work for the government or a nonprofit to enhance society and the environment. **Work in fields such as:** Geointelligence and Security, Natural Hazards Response, Transportation Planning, Energy and Sustainability. **Go to Graduate School** in Geography to earn a Master's or PhD.
