

BOONE PICKENS
SCHOOL OF GEOLOGY
 College of Arts and Sciences

Effect meaningful change with a degree in Geology

DISCOVER AND RECOGNIZE the world around you!
BECOME AN EARTH SCIENTIST and so much more!
 Uncover and Gain knowledge on **HOW TO IMPROVE LIFE!**

	FIRST YEAR	SECOND YEAR	THIRD YEAR	FOURTH YEAR+
Your Courses	Start off taking GEOL 1214 and GEOL 1224 , along with Intro to Biology, College Math, Chemistry, and General Educational Courses.	Continue with GEOL 2464 and GEOL 2403 , along with Physics, General Educational Courses and Major, College or Elective Courses.	Continue with GEOL 3014 , GEOL 3034 , GEOL 2103 or another Physics class along with Major, College and Elective Courses.	Finish your Major, College and Elective Courses. Speak with your faculty mentor and advisor about what courses you may need to finish your journey!
Your Experience	Get your hands-on experience with field trips and the state-of-the-art Labs that BPSoG has to offer!	Seek out information on how to get opportunities to participate in Study Abroad Programs and International Research Projects.	Attend and present at different local, regional and national annual meetings in geology.	Join others at the BPSoG Field Camp in Canon City, Colorado for 5 weeks of field geoscience, hiking, learning and spending time with friends!
Your Community	Get to know your peers! Network with faculty, staff, other students and alumni at departmental activities to grow your network.	Join a student organization such as AAPG, AIPG, AWG, GGSA, OSUGS, SEG and others to get to know people that are interested in the same things as you.	Participate in outreach opportunities to give yourself better teaching and social skills, have fun learning while building your resume.	Apply for one of the many leader positions in the many student organizations that BPSoG has.
Your Career Readiness	Meet with your faculty mentor and academic advisor prior to enrollment to plan your class schedule and make sure you are meeting all requirements.	Apply for scholarships and fellowships. Attend workshops given by experts and alumni.	Attend local job fairs and explore internships , while getting your name out there. Seek advice from your faculty mentor about electives you can use!	Sit down one-on-one with your faculty member and see what your next steps will be and what your options are.
Your Personalized Path	Consider a Major option such as: Business Essentials, Petroleum Geology, Pre-Law, or Secondary Teacher Certification.			

YOU WILL LEARN

How to interpret the history of the earth!
 How to use natural resources and study geologic hazards to improve the quality of human life!
 How to analyze, visualize and share your data!

WHAT IS NEXT

Work in fields like: Petroleum, Academia, Government, Geochemistry, Geomorphology, Hydrogeology, Sedimentology, Seismology, Stratigraphy.

Consider a MS or PH.D. for improved options!
