

DEPARTMENT OF
GEOGRAPHY
College of Arts and Sciences

Make a lasting difference with a degree in Global Studies

Make a **POSITIVE** impact on the world

EXPLORE DIFFERENT PEOPLES, places and perspectives

GAIN GLOBAL AWARENESS on the human and physical environment

	FIRST YEAR	SECOND YEAR	THIRD YEAR	FOURTH YEAR+
Your Courses	Build a firm foundation in Global Studies by enrolling in GEOG 1113 & 1114 and GLST 2103.	Enhance global regional awareness by taking GEOG 1713 and learn about Sustainability (GLST 2002).	Specialize through one of three tracks: Culture, Arts, and Humanities; Sustainability; or Geopolitics and the Global Economy.	Round out your skill set with GLST 4513, the Senior Capstone Experience. Finish additional coursework.
Your Experience	Join The Geography Club , volunteer, and take part in online courses for holistic academic and professional growth.	Expand cultural awareness through Geography Colloquiums or campus events like Difficult Dialogues.	Engage in hands-on research or teaching experience through GUMP or GTLE.	Try cultural exchange programs to foster diverse relationships. Attend a regional Geography Conference like SWAAG.
Your Community	Find other active groups related to personal interests and goals. Meet diverse members of the campus community.	Deepen campus connections through leadership roles, mentorship, & study groups.	Consider studying abroad or taking global courses and secondary language courses.	Forge community ties by taking part in local environment and development projects, or volunteering with NGOs.
Your Career Readiness	Explore career services, set goals with your advisor , build an online presence, and find mentors.	Pursue internships aligned with global affairs, hone your language skills, and explore study abroad.	Strategize for post-graduation success by applying for Geography Scholarships. Apply to Gamma Theta Upsilon.	Network through internships, mentors, and industry events. Attend career fairs.
Your Personalized Path	Pursue a degree option in Pre-Law or Business Essentials; or get a certificate in GIS or Environmental Studies.			

YOU WILL LEARN

How to be a knowledgeable global citizen; Why people and places are alike or different; How sustainability is important for the future; The value of a global perspective through travel and language

WHAT IS NEXT

Join a NGO or Non-profit and protect the environment; Take a gap year and travel abroad
