### WHAT WE DO?

We are here to help students transition from college to career. We offer one-on-one appointments to aid in the application process and to explore careers within desired industries. We provide resources for students who want to learn more about career development. We are also available to give presentations in and outside of the classroom.

Whatever questions you might have about careers, internships, graduate school, etc., we are here to help!

### CONTACT US!

### APPOINTMENTS

- Resume/CV & Cover Letter Review
- Job Search Tips
- Interview Preparation
- Mock Interviews
- General Career Advice
- Major Change Exploration
- Graduate School Information
- Personal Statement Review

### RESOURCES

Life Sciences East 213 has a career corner where students can check out books on career development, choosing majors, interviews, degree-related jobs, and test prep books.

### PRESENTATIONS

We give presentations in the classroom, at clubs and organization meetings, and at department events. Our topics range from resume/CV creation to career development, and networking, or you can request a topic that works for your group. You can request a presentation via email or on our website.
